Lez Zeppelin: Learn all about them here...

See? Even the Associated Press and plenty of other internet news reporters make mistakes when reporting news. Everyone makes mistakes! I'm not the only one! :-)

My belief is why some news reporters out there made the mistake was that they thought Bonnaroo website may have made a spelling mistake on the Led Zeppelin name(when they didn't), that's what led them to believe Led Zeppelin was playing. None of the news reporters knew who Lez Zeppelin were.

Lez Zeppelin is an unsigned Led Zeppelin tribute band, all female. The band lineup for LeZ Zeppelin is: Sarah McLellan (lead vocals), Steph Paynes (guitar), Lisa Brigantino (bass, keyboards, mandolin) and Helen Destroy (drums).

Check the band out here at their myspace... and

While Led Zeppelin will not be at Bonnaroo, they can still enjoy the music of Led Zeppelin by these girls!

I can see Robert watching this band perform at Bonnaroo with a big smile on his face. :) Maybe Led Zeppelin will even invite Robert onstage to sing a song with them. :)
